EDUCATION

Nazarbayev University
Nur-Sultan, Kazakhstan

Aug 2019 - Expected: Jun 2023

- BS in Computer Science
- Major GPA: 3.5/4.0, CGPA: 3.04/4.0
- Relevant Coursework: Performance and Data Structures

PROJECTS

Tanda, iOS application - production is suspended currently

- Built an iOS application that helps to provide the best groceries and recipes from chefs by teaching myself **Swift**, **Firestore**, and using **MVC** design pattern in several months
- Collected over **4700** groceries information using **Selenium** and **Python** in several days
Link: github.com/kuna-anarbay/Tannda

Minder, Telegram Bot

- Developed a task-reminder Telegram bot with more than **100** users by teaching myself **Python**, **PostgreSQL**, and **Python-telegram-bot** library in one month
Link: github.com/justadlet/minderbbot

TECHNICAL SKILLS

Programming Languages: C++, Python, Swift, HTML, CSS, PostgreSQL
Technologies and Frameworks: Bootstrap, Selenium

ACTIVITIES

Programming Club

2015 - 2020

- Solved over **1000** competitive programming problems, using **C++**, that require advanced knowledge of **Algorithms** and **Data structures**
- Conducted over **20** training sessions and lectured various algorithms and data structures, authored programming contests for junior members of that club in the country
- Hackerrank (2119): [zeineken_adlet](#), Codechef (1843): [adlet_zeineken](#), Codeforces (1673, over 900 solved problems): [justadlet](#)

Prizewinner of national/international olympiads

2015 - 2019

- Competed and won around **15** certificates and medals in competitive programming competitions

HONORS AND AWARDS

- Placed **5th** out of over **140** teams in ICPC Kazakhstan National Round and passed to Northern Eurasia Finals. ICPC is an algorithmic programming contest for college students in teams of three (2019)
- **Bronze** and **Silver** medalist in the National Olympiad in Informatics (Kazakhstan) with around **120** students in the finals, **40%** are awarded (2019, 2017)
- **Bronze** medalist in Informatics at the International Zhautykov Olympiad with **160+** participants from over **20** countries (2019)
- **Bronze** medalist at the International Eurasian team Olympiad in Informatics with **160+** teams. It is an annual algorithmic programming competition for high-school students in teams of three (2017)
